

## English

We will be exploring a number of texts over the next two terms including 'Little Moon' and work around a short animation. Through our exploration of different texts the children will continue to develop their writing for different purposes.

Phonics and reading will continue to be an important focus throughout the two terms.

## Music

We will be exploring the planets and looking at how music is used to describe them.

## Computing

Developing basic computer skills using word. This will include typing skills and editing work. Creating power point presentations.

## History

To study the Great fire of London, the events that took place and to develop an understanding of why this happened in the past.

# What a wonderful world.

## PE

Dance.

Key skills.

## RE

What do Christians believe God is like?

Who is Jewish and how do they live?

## Maths

In maths over the next two terms the children will cover the following topics

Number formation and recognition  
Number: place value  
Addition and subtraction - revision  
Geometry: shape and symmetry  
Multiplication and division.  
Graphs and data.

Class1

Terms 3&4

## Science

### Space and planets

Seasonal changes Develop an understanding of how the seasons change and how we recognise this through nature and weather.

### Everyday materials

Develop an understanding of the different material, their properties and their uses.

## Art

Study and look at the work of some inspirational artists.

To use a variety of media to create pieces of art.

## DT

Design and make space rockets.

Design and make papier mache planets.

Design and make windmills with a link to maths.

Design safety posters for fire and water

## Geography

We will be using maps and atlases to locate the countries and oceans of the world. We will also be exploring the different weather in different countries.
